

May 21st, 2010

Dear Sailor:

Welcome to the Participation Committee for this sailing season. The maintenance of the building and grounds are necessities in order to make WSA run efficiently. New members are first asked to serve in this capacity, followed by present members (selected in rotation), while Officers are those already on other committee are exempt. Members are selected from the current Membership List, as of the date that dues must be paid. Anyone joining later in the season will be first on next year's list. Normally, it is about three years before you would be asked again.

Please check the date that you have been assigned, and please email me this week that either (1) your assigned date will work for you, or (2) you have called to arrange a switch with someone else on the list. It is *your responsibility* to arrange this switch, to allow for your convenience and unforeseen events, but it ultimately remains your responsibility to cover the detail, one way or another. (WSA rules state that any member who is assigned cleaning and does not fulfill their obligation will be fined \$25. a second offence is automatic expulsion from The Association.) We know this may seem sever, but there have been a few occasions where members don't feel this responsibility. Fortunately, this hasn't often been a problem, as our members traditionally respect fellow sailors, and the Association that we share, and follow through and do the best job that we can.

The cleaning detail should be done by noon on Saturday. This ensures that The Anchorage and grounds will look their best by the peak of each weekend. When you're through, please remember to sign next to your name on the sheet posted on the bulletin board, and send a confirmation email to me, certifying that you completed the listed tasks. Depending upon the amount of weeds washed ashore, usually this duty will probably take about two to three hours. The tasks are twofold: 1) Cleaning the Anchorage building, 2) Clearing of the patio, deck, and waterfront.

You should find the equipment you need on the premises. The vacuum cleaner is in the ladies room,. Dustpan & brush in the kitchen, and cleaning supplies under the sinks. Racks and the wheelbarrow are in the tool shed. Trash should be bagged and sealed. (see attached sheet for specific details for disposal of trash, leaves, and weeds.)

If you need supplies please contact Igor Rabkin 508-579-2615 igor_sqa@hotmail.com

We sincerely thank you for your time and energy in helping to make WSA a clean, beautiful and enjoyable recreational facility for all of our families.

HAPPY SAILING

Respectfully Yours,

Saif Saifullah
Participation Chairman

2010 Cleaning Assignments

ANCHORAGE:

1. Empty wastebasket and trash barrels
2. Vacuum the floors
3. Clean sink and toilets, replacing papers and towels
4. Clean kitchen, stove, countertop, dishes, sink, and towels
5. Wash windows, when needed. Close them if you have opened them

WATERFRONT:

1. Sweep patio and deck. There may be a leaf blower, which works best
2. Wipe off chairs and tables – you may cleaner from inside the anchorage
3. Rake the beach; drop weeds and leaves in the trailer behind the Gas Storage Bin, and take trash with you. City would not take the trash
4. Sign list on the bulletin board and send me an email. Please lockup when done

Thanks You! You are truly appreciated!!
